2nd December '16  
Christmas Social*

## QRZ it

Please link your QRZ page to our website to boost our ranking in Search engines. My Account > Edit Biography > Insert Link icon.

## Don't Risk it

Fred, Vice Chair, is updating our risk assessments. Let him know of any safety problems.

## Hand Over

Big dollop of "Thanks" for all their hard work to Tom 2E0TNC, Andy G1GKN and Ann M6INE who have stood down from the Committee.

## Missed QSO

Lots happening so keep your email up-to-date. Tell Ben M6JNX of any changes. Don't miss out.

## A Ton of Training

Top marks to Mark, M0IEO, and everyone involved in making 2017 the year when we welcome our 100th training candidate.

## Visit our Website

Address at top of page

## Teas-Up

Don't forget to put a tip in the box for refreshments to cover the cost (currently running at a loss).

## Leave that to me

Pat has volunteered to be the club photographer. How can you get more involved? Suggestions:

- Take a turn at Net Controller
- Facebook / Twitter updates
- Distribute flyers
- Make phoning calls (?ask?)
- Arrange a speaker
- Space for storage at home
- Bring cakes to club meetings
- Take a turn at the tea hatch

## Branded

We have a stall at the Canvey Rally on Sun 5th Feb. Visit and wear your TARG top with pride. **Del 2E0EVZ**, is the new TARG merchandise merchant.

## In it to Win it

Is the raffle fixed as the same people keep on winning? No, it's just that they bought a ticket. The raffle helps raise funds and if the prize isn't what you wanted then flog it on TBay.

## TBay

Our equivalent to EBay. Bring your unwanted bits and bobs to the TBay table. Label the item with your name so buyers know who to haggle with. You can also display items you don't want to sell but are of general interest.

## Why don't we do that ?

We probably could - if we know what it was. Some great ideas at the AGM. We're open minded to try something new, different or have another go if it didn't work first time. Speak to **Nigel M0ICH**.

## Going around in circles

Bejoy 2E0KFB with Fred 2E0FRE showing his partly built magloop.
