

TARG Radio Equipment for Loan

General Guidance

TARG has a range of equipment and books for loan to members as advertised on the Club Website via the secure "Log In" tab. Members will be given the password on request.

Other equipment owned by the club, such as the marquee, is not available for loan and is not displayed on the website.

All equipment has been donated to the club or bought by the club for use by its members. Some equipment is very expensive to buy, repair or replace - which is why the loan option is such an asset for the club.

The duration of the loan will be at the discretion of the Equipment Officer and equipment must be returned immediately on demand. Club events, such as Field Days or Training, will always take precedence over loan to individuals.

The equipment is inspected by the Equipment Officer, John MOLF, before and after loan. Damage to equipment is NOT covered by the Club's Public Liability Insurance. This means that great care must be taken when handling or operating the equipment.

The equipment must only be used in a manner for which it is obviously intended. Do not remove the covers, attempt a repair, or use it in manner outside of its intended working parameters. Where relevant, it should only be used within the terms of the operator's licence conditions.

If you are unsure on what to do then please ask and we will be happy to demonstrate or help in any reasonable way we can. If you experience a problem then bring it to the attention of the Equipment Officer as soon as possible.

John MOLF,
Equipment Officer.
